

LARAMIE COUNTY

JOB DESCRIPTION

TITLE: Emergency Communications Dispatcher

FLSA: Non-Exempt

DEPARTMENT: Combined Communications

REVISED:

Summary: Under direct supervision, facilitates emergency and routine public safety communications between the general public, public safety responders and their respective support agencies; utilizes specialized radio, telephone and computer systems in order to prevent or lessen the likelihood of loss of life or property.

Essential Job Functions: *(Essential function, as defined under the Americans with Disabilities Act, may include the following tasks, knowledge, skills and other characteristics. This list of tasks is ILLUSTRATIVE ONLY, and is not a comprehensive listing of all functions and tasks performed by positions in this class.)*

- Responds to telephone calls from the public, supported agencies and outside agencies in relation to requests for emergency assistance, routine assistance and general information; initiates telephone calls to facilitate the exchange of information as required.
- Identifies and coordinates Emergency Medical Dispatch (EMD) calls, including guiding callers through basic medical/first aid steps to be taken until the arrival of qualified responders.
- Utilizes a Computer Aided Dispatch (CAD) System to enter calls for service, responder status, and to add pertinent information in relation to calls for service and/or responder activities; prioritizes calls for service and monitors responder status; conducts research on names, locations, phone numbers, vehicles and property in conjunction with medical or law enforcement situations.
- Tracks responders through the combined use of telephone, radio and CAD systems; ensures the expedient dispatch of appropriate responders.
- Utilizes various radio frequencies in order to communicate effectively with relevant government and civilian entities; ensures a safe and expedient response to emergencies and routine calls.
- Coordinates the flow of information between public safety responders to both governmental and civilian support agencies, including notification of malfunctioning traffic signals and need for tow trucks.
- Utilizes the Criminal Justice Information System (CJIS) to make inquiries in relation to persons and property; conducts research regarding driver's licenses, driver history, vehicle registration and criminal history.
- Conducts information quality control; ensures accuracy and completeness of information gathered.
- Maintains, monitors and activates the Emergency Warning System including providing advanced warning to County residents regarding imminent danger, providing alerts to the possibility of danger, and performing monthly system tests.
- Performs other duties as assigned or required.

LARAMIE COUNTY
